Coghlin Companies Channels 125 Years of Engineering and Contract Manufacturing Expertise into New Resource Portal

WORCESTER, Mass. – June 8, 2010 – [Coghlin Companies](#), a privately held firm specializing in creative design, engineering, manufacturing and global fulfillment solutions, today announced a new manufacturing resource portal and website stocked with design tips, compliance advice, regulatory information and more. Here, companies considering contract manufacturing can find materials to help them evaluate this approach.

In addition to company information and imagery, the Coghlin Companies website now includes customer case studies that illustrate the successful ways in which companies use contract manufacturing to remain innovative, competitive, and profitable. Additionally, a news page on the site presents a collection of articles written by a range of Coghlin experts. These pieces address important regulatory and design issues and questions that companies should consider before working with a contract manufacturer. - [Military Market Struggles with RoHS](#), *COTS Journal*
- [Clean Room Technology and Assembly](#), *Medical Product Manufacturing News*

“When companies come to us looking for a partner to help design or manufacture a product, they often have a lot of questions about compliance restrictions, quality and safety issues, and intellectual protection,” said Chris Coghlin, President and CEO, Coghlin Companies. “With well over a century invested in this business, we’ve gained significant experience with these issues. We feel others will benefit from our industry knowledge if we share it in a more open and interactive way.”
