

Coghlin Companies at Forefront of Quality Assurance Development, Education and Training

Cogmedix Director of Quality and Compliance Scott Cook elected to Vice President of the Society of Quality Assurance

WORCESTER, Mass. – March 22, 2012 – Members of the Society of Quality Assurance (SQA) recently elected Cogmedix Director of Quality and Compliance Scott Cook to Vice President of the organization. In his role as VP, Cook will leverage experience from over ten years of membership with SQA and seventeen years in FDA regulated businesses.

A professional membership society dedicated to promoting and advancing the principles and knowledge of quality assurance essential to human, animal and environmental health, SQA provides professional development, education and training for over 2,500 members across the globe. The organization creates collaborative relationships with governmental authorities, professional organizations, academia and industry leaders, and participates in the regulatory processes related to human, animal and environmental health.

“SQA provides great opportunities for regulatory insight, career training, and professional networking,” said Cook. “As its new VP, I look forward to strengthening the society’s specialty sections and regional chapters. The economy for the last few years has challenged the way we connect with colleagues, both here and outside the United States. We need to explore innovative ways to improve accessibility to training through libraries of webinars, regional meetings and specialty section presentations that can enhance SQA members’ development and growth.”

“Cogmedix is at the forefront of medical device contract manufacturing solutions for companies seeking an experienced partner for bringing their products to market efficiently and in compliance with FDA standards,” said Matt Giza, VP, Cogmedix. “It is especially satisfying to know that Scott, who leads all facets of our quality and compliance efforts, has been elected as Vice President of SQA to help lead and maintain the standards of such a respected organization.”

The Vice-President is the second highest-ranking elected officer of the Society. At the conclusion of the President’s term of office, the Vice-President automatically accedes to the office of President, followed by a one-year term as Past President.
