

Coghlin Companies to Globalize Field Service Operations

WORCESTER, MA - FEBRUARY 12, 2013 - Coghlin Companies has recently hired a new Director of Global Field Service Operations to take their national field service and support group to a global level. Coghlin Companies' Field Service Support division is well known and respected for being a 24/7 experienced technical resource group with solid core competencies in deploying equipment and providing custom on-site services associated with preventative maintenance, troubleshooting, repair, refurbishment, installation and asset management. Strong competencies in mechanics, electronics, pneumatics, electro-mechanics computer technology and refrigeration make it one of the most diverse and flexible global resource organizations. Coghlin Companies has the full turnkey capability to deliver capital equipment and other technology products directly to their customers and assist in the commissioning and continuing support of them without limitation.

“This Global Field Service offering is such a great value to our clients, not only to build and engineer their product, but also to be able to install and support it when requested”, stated Michael Triber, Director of Global Field Service Operations for Coghlin Companies. He continued, “Field services can be extremely cost effective for clients because they have access to our expert team and do not need to invest in developing a full-time team of their own. This allows them to focus their time and resources on their core competencies and overall technology and product advancement.”

Coghlin Companies truly value their clients and are committed to helping them become successful through providing world class product development, engineering, contract manufacturing, refurbishment and Global Field Services. In addition to servicing products manufactured by the Coghlin Companies for its clients, Coghlin Companies has extensive experience servicing equipment manufactured by CSZ, ThermoTron, Yenney, Environtronics and a multitude of environmental chambers.

About Coghlin Companies
