

Cogmedix Breaks Ground on World-Class Manufacturing Facility in West Boylston

The new state-of-the-art medical device engineering and production facility is expected to create up to 200 job opportunities for the local community.

WEST BOYLSTON, Mass. February 24, 2022 — [Cogmedix](#), a wholly-owned subsidiary of Coghlin Companies, Inc., and provider of [FDA-compliant medical device engineering](#) and manufacturing services, recently held a groundbreaking ceremony with their Board of Directors and Senior Leadership Team for a new world-class 101,000 square foot facility in West Boylston, MA.

Cogmedix relocated its headquarters to West Boylston in 2019 to support its growing medical device client base, with ample capacity for growth. The new state-of-the-art facility will more than double the current Cogmedix footprint and is expected to create up to 200 new jobs in the next 3-5 years with the opportunity to hire many from the local community.

"We are thrilled about this expansion and the additional capacity it provides current and future customers", said Coghlin Companies President and CEO, Chris Coghlin. "We also look forward to welcoming new talent to the Cogmedix team as we continue to grow in our new world-class FDA compliant facility."

The West Boylston site will be built on approximately 15 acres of industrial land, owned by D&S Realty LLP, located just behind Cogmedix's current headquarters at 127 Hartwell Street. Construction of the facility is being completed by The McCarty Companies, located in Leominster, MA over the next 12-15 months.
